

Location : SR77 (Yuen Leng 2 - Free Field)

Day time 07:00-19:00 hrs Normal Weekdays Impact Noise Monitoring Results

| Date       | Start<br>Time | End<br>Time | Measured Noise Level (dB(A))* |            |            | Baseline Corrected<br>Level, dB(A)** | Baseline Noise Level<br>(dB(A)), Leq(30min) | Limit Level<br>dB(A) | Exceedance<br>(Y / N) |
|------------|---------------|-------------|-------------------------------|------------|------------|--------------------------------------|---------------------------------------------|----------------------|-----------------------|
|            |               |             | L10(30min)                    | L90(30min) | Leq(30min) |                                      |                                             |                      |                       |
| 2014/03/06 | 11:00         | 11:30       | 70.8                          | 76.1       | 64.9       | -                                    | 67.8                                        | 75.0                 | N                     |

**Remarks**

\* +3dB(A) Façade effect correction included

\*\* Baseline corrected level is only calculated when measured noise level (Leq) > limit level.
